August 2015 Edition, Vol IV

Feather in your Cap's !

Congratulations, Ashutosh Yadav, Vivek Soni & Pallavi Shrotriya

"There is no other greater source of inspiration and motivation than to walk into work every morning and be greeted by smiles of friendly and supportive team members like you.

On behalf of whole team, I want to tell you how much we appreciate the endless efforts you dedicated to getting the DevOps and Code Stream project completed on time. It was really impressive the way you kept your colleagues motivated and focused. You have really made a mark here @ShepHertz in such a short time. Thank you for giving your best. May you enjoy this type of success in all your endeavors."

Your enthusiasm, dedication, Hard work, positive attitude towards work are really appreciable.

You are always hungry for challenges and excellence. Your excellence and brilliance have always made for a stunning performance at work.

I really thank you shouldering responsibility and putting the company's interests ahead of your own and also for being a source of inspiration for your colleagues. Working with you is a blessing.

Naveen Goswami

I truly appreciate your efforts put into bringing each and every product to a level which we could successfully showcased at VMWorld 2015. Your planning, being responsible for delivery on time and dedication helped us to create a value of our products globally in the event. Even though you consider yourself as a UI developer but let me tell you that you have good sense of designing as well.

I want to congratulate for this milestone and encourage to achieve many more.

Good luck.

Sushil Singh Bhadouria

"Hansike phaoowhare"

Teacher: "Kids, what does the chicken give you?"

Student: "Meat!"

Teacher: "Very good! Now what does the pig give you?"

Student: "Bacon!"

Teacher: "Great! And what does the fat cow give you?"

Student: "Homework!"

A teacher asked her students to use the word "beans" in a sentence.

"My father grows beans," said one girl.

"My mother cooks beans," said a boy.

A third student spoke up, "We are all human beans."

Your Health with WINE

According to the American Health Association, Four to Eight ounces of wine a day makes a positive difference to Health.

Wine promotes Longevity by:

Lowering the risk of Heart Disease: Red wine tannins contain procyanidins, which protect against heart disease. Wines produced in Sardinia and South West France have a higher level of procyanidins as compared to other reds.

Reducing the risk of Heart Attack: Moderate drinkers who suffer from High blood pressure are 30 per cent less likely to have a heart attack as compared to non drinkers.

Lowering risk of a stroke: Those who drink moderately are 50 per cent less likely to suffer a blood clot related disease.

Reducing risk of Type 2 diabetes: Moderate drinkers have a 30 per cent less chance of developing type 2 diabetes as compared to non drinkers.

Cutting risk of Cataracts : Moderate drinkers are 35 per cent less likely to develop cataracts than non drinkers.

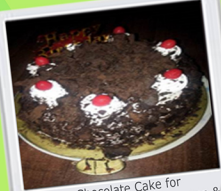

Cutting risk of colon cancer : Moderate consumers of wine, specially red wine, cut the risk of developing colon cancer by 45 per cent.

Slowing brain decline : Non drinkers suffer a noticeably faster rate of brain decline.
